**PIONEER MILL HAS A HARVEST HOME**

Manager Weinheimer Entertains Some Hundreds to Celebrate a Prosperous Year.

(Mail Special to The Advertiser.)

WAILUKU, August 22.—Not to be outdone by Punahoa, Manager Weinheimer of the Pioneer Mill, Lahaina, gave a harvest home luncheon at Lahaina last Saturday which will go down in history as one of the most enjoyable and complete affairs of its kind ever given on the Valley Isle.

Two bullocks, six pigs, several hundred mullet and a beautiful supply of other Hawaiian delicacies figured in the feast which was spread under the great banyan in the rear of the court-house. The tree was decorated with bunting and tables were spread in a circle beneath its generous shade.

Long before three o'clock, the hour set for the commencement of the luncheon, the guests began to assemble, many of them coming from far out of town, some in carriages and autos, many on horseback and not a few on foot.

While the luncheon was in progress music was rendered by native musicians. It is estimated that between four and five hundred people partook of the hospitality of the management of the Pioneer Mill.

In the evening there was a dance in the parish hall which was well attended and thoroughly enjoyed by all who were present.

It was certainly a great day for Lahaina and Manager Weinheimer is to be congratulated for having adopted such a happy way of cementing friendly relations between the great sugar company and its neighbors and dwellers along the countryside.

The Lahaina folks strove to outdo each other in making visitors feel at home and the Wailuku delegation certainly returned home bearing with them recollections of the pleasantest.

It was seven o'clock the following morning before there was any sign of life in the sleepy old town and that was when a guest at the Pioneer Hotel threw a boot at a dog which was worrying the slunk of an ox at the foot of the hotel stairway.

It was oppressively hot at Lahaina on Sunday, regular earthquake weather in fact. The only relief was to don a bathing suit and stay in the water. In the evening, when the sun has gone down behind Lanai, the breeze comes in from the sea and life is once again livable in the quaint old whaling center of other days.

Doves are quite plentiful around Lahaina and George Freeland made a good bag on Sunday.

The aku are running at present and \$1200 worth were caught in one day quite recently. Fished for with a bamboo these game fish—they are the bonito of California waters—afford rare sport, indeed there is none better to be found anywhere when the aku are biting freely.

A fishing party is being organized here to have a day with the aku before the summer run is over.

**HAWAIIAN BOY AS MUSIC COMPOSER**

Albert Horner Writing Airs for Musical Comedy to Be Given at Cornell.

ITHACA, August 20.—The island of Hawaii seems bound to shine in the reflected light of Cornell University, through the musical talent of Albert Horner Jr., who has been staying in this city for a couple of weeks. While here he has been devoting practically all his time to writing the music for a musical comedy which will be played by "The Masque," an organization of Cornell which puts on a show of that class every year. Last year "The Masque" traveled all over New York State, putting on their play in the best theaters in Syracuse, Elmira, Rochester and other cities of that class as well as in New York city. They made a hit everywhere that they went, drawing very large houses. This year they will make a trip South as far as New Orleans.

The play for this year will be known as "The Composers," and is of the most up-to-date musical type. It is entirely a Cornell production, the music and songs being written by students, and all the parts taken by them. The songs were written and sent to Horner to be set to music and he has been busily engaged on this work. In doing so he has had the assistance of Fred Tombridge of this city who would set the songs as Horner wrote the music, thus allowing the latter to see where there were faults and make corrections of them. Those who have heard the music are delighted and some of it is tremendously catchy. One song in particular, "When Venus Turned Soft," is heard to make a hit and he has a good professional. In addition to setting the music for the songs, Horner is writing all the dances, some of which, especially that for the quadrille, is extremely catchy.

**FIFTH INFAMOUS CASE REPORTED**

A few hours after the news that Scott was a police court case, they were told that he was a judge of appeal and that George Thomas was a judge of appeal and that George Thomas was a judge of appeal and that George Thomas was a judge of appeal.

Thomas Scott was on parole when he was arrested, resulting in a Japanese court at Wailuku, a case that was a

the Japanese there almost to the riot point, but escaped on various technicalities of law and the charge was changed to assault and battery. Scott was the second man arrested during the last few months on like charges. The first man was Edward Lane, who had his case afterwards changed to vagrancy because of "technicalities of law," a change that the grand jury refused to countenance.

The result of the example furnished by these prosecutions is shown the most plainly by the fact that Thomas is the fifth man arrested within a short time on warrants charging indecent assaults. The people who found a moral connection between Scott's crime and a charge of assault and battery would probably claim that technicalities of law will necessitate a charge of high treason to be entered against Thomas.

**WILL START NEW PAPER ON ISLAND OF MAUI**

Hawaii Herald.—A new Japanese newspaper on the island of Maui is one of the matters which is disturbing Editor Sheba, of the Hawaii Shippo, who left for Honolulu by the Mauna Kea last week after a visit here of about ten days. Sheba is the Willie Hearst of the island in the newspaper line, owning newspapers in this city, in Honolulu and on Kauai at the present time and planning for a paper on Maui, "to complete the circuit," as he expresses it. In his editorial policies, however, Sheba is very far from the Hearst doctrines, being a conservative of the pronounced type. When the recent Japanese strike was on in the plantations he stayed with the employers, and advised the Japanese to keep out of the fight, thereby losing a large number of subscribers. Recently, however, his papers have been coming back into favor with his people, who have come to understand that he can see further into the future than the average person.

The Japanese people, according to Sheba, class the three Japanese papers in Honolulu with the three haole papers, in influence and in policies. The Shippo is said to correspond closely with The Advertiser, the Chronicle with the Bulletin and the Nippon Jiji with the Star. Mr. Sheba personally represents the highest type of Japanese seen in these islands. He talks very good English, understands the haole customs as well as Japanese, has a keen wit and is a great favorite among the Americans whom his work brings him in contact with in Honolulu. As a newspaper man, he has adopted American methods and is not only a sharp editorial writer but also a first-class business manager.

**MOTHERS**

should know. The troubles with multitudes of girls is a want of proper nourishment and enough of it. Now-a-days they call this condition by the learned name of Anemia. But words change no facts. There are thousands of girls of this kind anywhere between childhood and young ladyhood. Disease finds most of its victims among them. Some of them are passing through the mysterious changes which lead up to maturity and need especial watchfulness and care. Alas, how many break down at this critical period; the story of such losses is the saddest in the history of home. The proper treatment might have saved most of these household treasures, if the mothers had only known of **WAMPOLE'S PREPARATION** and given it to their daughters, they would have grown to be strong and healthy women. It is palatable as honey and contains all the curative properties of pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. Search the world over and you will find nothing to equal it. Taken before meals it improves the nutritive value of ordinary foods by making them easier to assimilate, and has carried hope and good cheer into thousands of darkened homes. The Abigail Kindergarten says: "Your preparation is a sure cure for the most violent cold, if properly taken. In treating children, it has proved in many cases under our observation a sure preventive of the progress of pulmonary affections, and has in every case of incipient consumption acted as a stay of that dreadful disease." It will not disappoint you. Sold by all chemists here.
